

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A game comprising:

- (a) a game board having a general scoring area;
- (b) one or more blocking pieces configured to be positioned on said game board to define a specific scoring area, wherein said specific scoring area comprises at least one [is a] portion of said general scoring area remaining uncovered by said one or more blocking piece; and
- (c) one or more scoring pieces distinct from said one or more blocking pieces and configured to be positioned on said game board.

2 - 4. (canceled)

5.(Previously amended) The game of claim 1 wherein each of the blocking pieces includes a magnet for fixedly positioning the blocking pieces on the game board.

6.(Previously amended) The game of claim 1 wherein each of the scoring pieces includes a magnet for fixedly positioning the blocking pieces on the game board.

7.(Previously amended) The game of claim 1 wherein:

- (i) the game board includes a base attachment means;
- (ii) the blocking pieces have a complementary attachment means; and
- (iii) the base attachment means and complementary attachment means cooperate to affix the blocking pieces to the game board.

8. (Original) The game of claim 7 wherein the base attachment means is a magnet and the complementary attachment means is another magnet.

9. (Original) The game of claim 8 wherein:

- (iv) the scoring pieces include said complementary attachment means; and
- (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said game board.

10. (Original) The game of claim 9 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

11. (Original) The game of claim 7 wherein the base attachment means is one part of a hook and loop fastening system and the complementary attachment means is another part of a hook and loop fastening system.

12. (Original) The game of claim 11 wherein:

- (iv) the scoring pieces include said complementary attachment means; and
- (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said game board.

13. (Original) The game of claim 12 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

14. (Original) The game of claim 7 wherein the game board further includes a primary fastener for attaching the game board to a support.

Appl No. 10/086,891

Amdt. Dated Sept 19, 2003

Reply to Office Action of April 21, 2003

15. (Original) The game of claim 13 wherein the primary attachment means is a magnet.

16. (Original) The game of claim 1 wherein:

- (i) the game board is configured to be positioned on a magnetic support;
- (ii) the blocking pieces have a complementary attachment means; and
- (iii) the base attachment means and complementary attachment means cooperate to affix the blocking pieces to the game board.

17. (Original) The game of claim 16 wherein the complementary attachment means is a magnet.

18. (Original) The game of claim 17 wherein:

- (iv) the scoring pieces include said complementary attachment means; and
- (v) the base attachment means and complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said support on top of said scoring surface.

19. (Original) The game of claim 18 wherein:

- (vi) the blocking pieces include said base attachment means; and
- (vii) the base attachment means of the blocking pieces and the complementary attachment means of the scoring pieces cooperate to affix said scoring pieces to said blocking pieces.

20. (Currently amended) A game comprising:

- (a) a game board;
- (b) one or more receiving pieces for positioning on said game board to define one or more general scoring areas on a surface of said one or more receiving pieces;
- (c) one or more blocking pieces for positioning on said game board to define one or more specific scoring areas, wherein said one or more specific scoring areas comprise at

least one portion of said one or more general scoring areas remaining uncovered by said one or more blocking pieces; and

(d) one or more scoring pieces for positioning on said game board.

21-26. (canceled)

27. (withdrawn) A method of playing a game comprising:

- (a) providing a game board having a general scoring area;
- (b) positioning at least one or more blocking pieces on said game board to define a specific scoring area, wherein the general scoring area is the portion of the specific scoring area that is not covered by the blocking pieces; and
- (c) positioning one or more scoring pieces on said game board.

28. (withdrawn) The method of claim 27 wherein said blocking pieces are positioned by tossing them onto said game board.

29. (withdrawn) The method of claim 28 wherein said scoring pieces are positioned by tossing them onto said game board.

30. (withdrawn) The method of claim 27 wherein said scoring pieces are positioned by tossing them onto said game board.

31. (withdrawn) The method of claim 27 wherein said game board includes a base attachment means and wherein each of said blocking pieces include a complementary attachment means and wherein said base attachment means and said complementary attachment means cooperate to fixedly position said blocking piece on said game board.

32. (withdrawn) The method of claim 31 wherein said base attachment means includes a magnet and said complementary attachment means includes another magnet.

Appl No. 10/086,891

Amdt. Dated Sept 19, 2003

Reply to Office Action of April 21, 2003

33. (withdrawn) The method of claim 31 wherein said base attachment means is a one part of a hook and loop fastening system and said complementary attachment means is another part of said hook and loop fastening system.

34. (withdrawn) The method of claim 27 wherein said game board is positioned on a base attachment means and wherein each of said blocking pieces include a complementary attachment means and wherein said base attachment means and said complementary attachment means cooperate to fixedly position said blocking piece relative to said game board.

35. (withdrawn) The method of claim 31 wherein said base attachment means includes a magnet and said complementary attachment means includes another magnet.

36. (withdrawn) The method of claim 27 further comprising awarding one or more points for positioning said scoring piece entirely within said specific scoring area.

37. (withdrawn) The method of claim 27 further comprising awarding one or more points for positioning said scoring piece at least partially within said specific scoring area.

38. (reinstated – formerly claim 25) The game of claim 20 wherein each of the blocking pieces includes a magnet for fixedly positioning the blocking pieces on the game board.

39. (reinstated – formerly claim 26) The game of claim 20 wherein each of the scoring pieces includes a magnet for fixedly positioning the blocking pieces on the game board.
